## Church Membership Criteria for CCK Application

### Membership Priority Requirements

Christ Church members receive priority in the CCK Lottery for enrollment. To qualify for this priority, the following requirements must be met:

- At least one parent must be a baptized or confirmed member in good standing: they participate in worship and formation and are known to the treasurer. While both parents are encouraged to be members, this is not required.
- The child must be a baptized member or have a scheduled baptism.
- By December 31, the member family must have paid an Annual Stewardship pledge for the current year and have a pledge on file for the upcoming year.
- The member parent(s) must have completed the New Member Orientation class. *Please note: The final class offering will be in November. Members who joined before December 31, 2024, are exempt from this requirement.*

Enrollment is determined by a lottery process. Meeting all requirements does not guarantee a spot if the number of member applications exceeds available spaces. Furthermore, if necessary, families who have been members for more than one year (and completed the above requirements) will be considered before members of less than a year.

### Membership Priority Requirements for Current CCK Families

All current CCK students are guaranteed placement for the upcoming school year, and sibling enrollment is given the highest priority in the lottery process. Priority for class placement is given to current CCK families who are Christ Church members in good standing. To qualify, the following apply:

- Attend worship services.
- Actively participate in the life of Christ Church by offering time and talent.
- CCK student should be a baptized member or have a scheduled baptism.
- By December 31, the member family must have paid an Annual Stewardship pledge for the current year and have a pledge on file for the upcoming year.

Member families who do not fully meet these criteria will be considered after families who do.
